• WHY NOW

ENTERPRISES ARE MOVING AI FROM PILOT TO PRODUCTION

72% of enterprises are shifting AI investment from experimentation to production — and the market backing that shift is compounding fast.

Conversational AI CAGR — \$11.6B → \$41.4B by 2030

LLM Market CAGR — \$6.5B → \$36.1B by 2030

SLM Market CAGR — \$5.3B → \$26.7B by 2032

\$104B+ combined AI market by 2030 — including a **\$48B agentic AI** wave growing at **43.3% CAGR**.

• WHO WE ARE

CONSULTING & PRODUCT ENGINEERING, **PROVEN AT ENTERPRISE SCALE**

A single engineering partner across the product lifecycle — from targeted modules to end-to-end ownership.

SINGLE ACCOUNTABLE TEAM

One partner across strategy, build, assurance and run.

GLOBAL DELIVERY MODEL

Onshore presence, scalable offshore engineering across 5 countries.

ENTERPRISE-GRADE RIGOR

Governed delivery, security and compliance from day one.

• TRUSTED BY

REAL CLIENTS. REAL SCALE. REAL RESULTS.

40+ enterprise clients across 10 industries — leading BFSI, insurance, logistics and technology brands run on Liberin.

TECHNOLOGY PARTNERS

• THE LIBERIN ENGINE

WE OWN THE STACK — ZERO THIRD-PARTY DEPENDENCY

A proprietary 7-stage pipeline turns raw data into deployed, governed AI — engineered end-to-end, not assembled from rented APIs.

THE PIPELINE

ZERO DEPS

We own the entire stack — no hidden API costs, no vendor lock-in, full data sovereignty.

35–40% GPU UTILIZATION

H100 / A100 clusters, far exceeding industry averages.

25M+ TRANSACTIONS / DAY

Engineered scale in production today.

THREE PRODUCTS, **ALREADY SHIPPING IN PRODUCTION**

Most players demo. We run agentic analytics, voice and privacy governance across regulated industries today.

CONVERSATIONAL AI · VOICE & CHAT

Boliye

Automates conversations across telephony, WhatsApp and web at lower cost per interaction.

Sub-2s latency · 22+ languages

MULTI-MODAL ENTERPRISE AI PLATFORM

Septa

Intelligent agents across Sales, Operations, Marketing, Finance and CxO functions.

92% accuracy · 40% faster insights

AI-POWERED PRIVACY & COMPLIANCE

PiiVacy

Continuous compliance and data protection, engineered for BFSI-grade audit and governance.

99.2% detection · BFSI-ready

CERTIFIED & COMPLIANT

THE UNIT ECONOMICS OF EVERY INTERACTION

Every customer and field interaction has a cost per touch — and a faster, cheaper way to handle the repetitive share of it.

80-90% COST REDUCTION
Per interaction, moving repetitive volume to AI.

24x7 COVERAGE
Versus 8-9 hrs/day of traditional shift coverage.

\$50B → \$139B BY 2033
Market growing 12-13% CAGR as 30-40% of interactions become automatable.

MONITORING AT SCALE + AI CASH FORECASTING

Platform used across 400,000+ ATMs / self-service devices spanning 25+ countries.

PRODUCT ENGINEERING • SUPPORT

OPERATIONS BRIDGE SUITE

- Remote monitoring across ATMs / PoS, RBAC & SLA
- Workflow alerts — email, SMS, IVR
- Health dashboards & field-service apps

MACHINE LEARNING FORECASTING

AI-BASED CASH INVENTORY FORECASTING

- ATM-level cash demand forecasting
- Denomination-wise planning & load schedules
- Automated cash orders & threshold alerts

BUSINESS IMPACT

LEANER, SMARTER CASH OPERATIONS

- Idle cash sitting in ATMs meaningfully reduced
- Lower cash transport & handling costs
- Optimized replenishment cuts avoidable fees

MORE PROOF POINTS

FCI-CCM

Cloud-native omnichannel CCM platform across SMS, WhatsApp, email, print.

PITNEY BOWES

Bangladesh Post automation — parcel intake, dispatch, delivery.

SMART CITY VARANASI

10,000 units — remote street-light control, telemetry, OTA firmware.

SMARTBOX

Smart locker platform — Core IoT services & hardware testing toolkit.

CERF SOLUTIONS

Re-architecting their CPaaS platform from 1K to 20K TPS — following similar work for ICICI Bank.
